

How well does **EN** predict a song in the top X tracks?

52%

X = 60

58%

X = 50

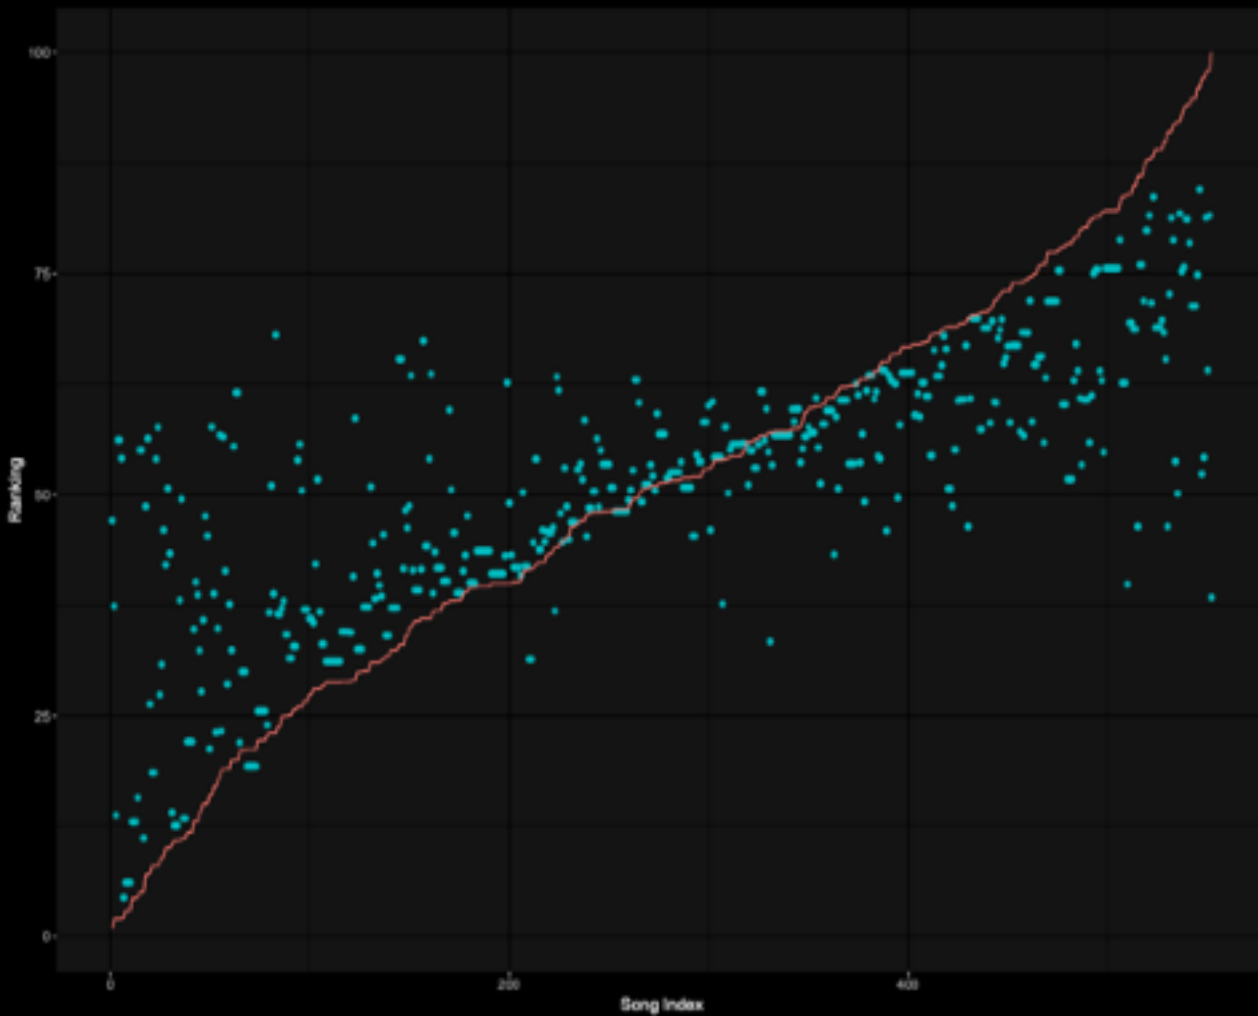

49%

X = 30

*percentages given as
balanced accuracy

Random Forest Model Performance

Random Forest "R²" Visualized

////////////////////////////////////

Mean squared error:

527.9183

Root mean squared error:

22.97647

Normalized root mean

squared error: 0.2220856

Variance Explained:

0.8083897
